

LICOM COMMUNICATIONS & ELECTRONICS, CO.

2450 DURHAM ROAD, BRISTOL, PENNSYLVANIA 19007 215-945-0998

April 6, 2006

STATEMENT

Licom Communications ("Carrier") has established operating procedures that ensure compliance with Federal Communication Commission ("Commission") regulations regarding the protection of consumer proprietary network information ("CPNI").

Carrier has implemented a system whereby the status of a customer's CPNI approval can be determined prior to the use of CPNI.

Carrier continually educates and trains all employees regarding the appropriate use of CPNI. Carrier has established disciplinary procedures should an employee violate the CPNI procedure established by Carrier.

Carrier maintains a record of its sales and marketing campaigns that use its customers' CPNI. Carrier also maintains a record of any and all instances where CPNI was disclosed or provided to third parties, or where the third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as part of the campaign.

Carrier has established a supervisory review process regarding compliance with the CPNI rules with respect to outbound marketing situations and maintains records of carrier compliance for a minimum period of one year. Specifically, Carrier sales personnel obtain supervisory approval of any proposed outbound marketing request for customer approval regarding its CPNI.

Gentlemen,

I would like to comment on this filing to the FCC.

I am not sure I have to file these statements with the FCC since no correspondence came from your office. I heard this through a third party, Enterprise Wireless Association (EWA) and they said that we have to submit these papers. I also ask Congressman Michael Fitzpatrick's office and they said to file the paper to stay in compliance even if it does not concern us. We are a two-way radio shop that supplies service to our business, industrial, and municipal users. We are private radio service and we do not provide any telephone, telephone services, or telemarketing to our customers. We do not provide telephone interconnect to our customers. We also do not provide any service to the general public only eligible users on our radio frequencies. We feel you are not distinguishing between a private carrier and public carrier.

If you need any further information please call.

Sincerely yours,
Ralph Liuzzi
